Thursday, May 2, 2019 - Chicago Botanic Gardens

We will have a casual shoot around at the CBG. We will meet up at 5:45 at the Heritage Garden ready to go. If there is bad weather we can shoot indoors or scratch.

Thursday May 23, 2018 - To Be Announced

Nature in View - April 6-28, 2019 - Barbara Dunn

The 2019 Nature in View Show was a beautiful display of members' photos. Attendance was good, and many commented on the photos and asked for information about the GPS.
Thank you to all of the members who made the show a success, both the photographers and those that volunteered to docent. Tami and I would like to thank

the members of the selection committee for attending a meeting on one of the record cold dates in Chicago!
Special thanks go out to Anne, Lara Joy, Marty B., Paul, Don H., Daniel K., Barbara W., and everyone who helped. Without your team effort, the show would not have been possible.
Next year's show dates are August 29 through September 20, 2020. We will be adjusting deadline dates in the information that you will receive at the start of the club year in the fall.

Calendar for 2019 - Anne Belmont

Smartphone Camera Apps - Jerry Hug

1. Snapseed (its is free) for both iPhones and all Smartphones. This app works for both traditional photo editing and many creative effects are included. This is my #1 application.
2. Retouch, sometimes called Touch/Retouch, had a clone tool and also power line removal tools. This app is also cross platform.
3. Distressed FX or Distressed FX + which has additional textures etc.
4. Slow Shutter App - A way to control creative movement photography.
5. Photoshop Express - Free
6. Photoshop Mix - Free
7. Lightroom CC (Mobile)
8. Superimpose X - combining images, hand made textures, sky's, watermarks etc.
9. Camera +2 or ProCamera - great alternatives to the built in camera with more controls.
10. Vivid HDR - The Ultimate Mobile HDR app.
11. Moment app - The best way to control land use the Moment Quality Lens.
12. 645 Pro Camera - Do you want a camera that is closer to the controls of your DSLR camera. Lots of controls to set.
13. As mentioned above I am many single use apps that do single specialized controls that I use for many different situations. My app count numbers over 300. Do I use them all? only when I want a very unique special effect. E-mail if you have a need for any additional apps. (Suggestion - start with a few and learn everything you can from the built in tutorials or yuuTube tutorials.

- **NEW! Out of Chicago Architecture & Street Photography Conference**
  An all new photography experience this summer, June 28-30, 2019. Transform your photography at this unique, 3-day, hands-on urban photography conference. Immerse yourself in photography classes, interactive sessions and Chicago's urban landscape, learning side-by-side from over a dozen of the world's best street and architecture photographers. If you're interested in photographing Chicago and exploring the "City as Art" with the pros, this conference is for you. ***For more information visit www.outofchicago.com/chicago. Sign up now to*** save $400 off this event using code CHICAGO before March 15th, 2019.

Registration is now open for both events! **Chris Smith** *Founder, Out of Chicago*

Chicago Area Photographic School - Ken Duszynski

The Chicago Area Camera Clubs Association would like to announce the return of C.A.P.S. (Chicago Area Photographic School) This 2 day event occurs only once every two years, so you might want to save the date. It will take place on November 23rd & 24th, 2019, which is the weekend before Thanksgiving. We have moved to a more convenient location,at

the Wojcik Conference Center at Harper College in Palatine, Illinois. There will be, not one, but two keynote speakers, Ian Plant and Steve Perry plus a wide selection of presentations and classes covering a diverse curriculum. In addition, we will be offering hands-on workshops and a vendor area to check out all the latest equipment. Please take a look at the attached information on the last page.

CACCA REPORT - Ken Duszynski

There was one winner in the April competition

Large Color Print / Glowing Iceberg / Karen Frischman / award

---

Save the date - Raptor Shoot October 5, 2019
Barry Rosenberg

We have set up a raptor shoot at SOAR (Saving Our Avian Resourses) for October 5, 2019 in Earlville, IL.
Contact me for times and directions. I am told that it is about a 90 min. drive.

Ian Plant

Whether hanging over the rim of an active volcano, braving the elements to photograph critically-endangered species, or trekking deep into the wilderness to places most people will never see, world-renowned professional photographer Ian Plant travels the globe seeking out amazing places and subjects in his never-ending quest to capture the beauty of our world with his camera.

Ian seeks out the hidden spaces in between the familiar, relying on long exposures, unique lighting conditions, non-traditional perspectives, and special natural events to show his subjects in a new light. He is known for his inspiring images and single-minded dedication to creating the perfect photo.

Ian has reached hundreds of thousands of people around the world in his mission to inspire and educate others in the art of photography. He is a frequent contributor to many leading photo magazines, a Tamron Image Master, and the author of numerous books and instructional videos.

Steve Perry

Steve Perry is an award-winning professional photographer, writer, and educator specializing in wildlife photography.

In addition to leading multiple workshops every year in Costa Rica, he has also published multiple books, articles, and how-to videos designed to help his fellow nature photographers bring their skills up to the next level.

His work has been featured in various calendars and magazines, including but not limited to Outdoor Photographer, National Wildlife Federation, Lake Superior Magazine, Popular Photography, Shutterbug, as well as dozens of other conservation and calendar publications.
